Bring Your Own Device

Dear Parents and Carers,

As students are returning to school 1 day per week and also continuing their learning at home, we do not have the resources to manage both at school. Therefore we are asking that you consider students bring their own device into the school.

If your child is currently using a school device at home, it will be necessary for them to bring the device to school with them, each day they attend. They will then take the device home again to continue using it to access online learning.

Students who have not borrowed devices from school, but have access to their own devices, will be permitted to bring them to school, to ensure they can complete all learning activities. These activities could include, but are not limited to; taking notes, undertaking research, creating and sharing projects, writing reports, completing assessments and other projects, as well as continuing with the single unit of work.

The following items are deemed suitable for teaching and learning during this period of time. Whichever device you have been using for learning from home.

- ***Ipad***
- ***Android Tablets***
- ***Laptops***
- ***Notebooks***

Please ensure devices are fully charged and charging cords are brought to school.

If you have any concerns or wish to seek further information, please feel free to contact your classroom teacher.

Thank you for your support,

Mrs Donna Barton
Principal
